

Governor Refuses To Tell Where He Got The Cash

Says Friends Supplied It Under Promise Of Secrecy

Austin, Aug. 20.—The cross-examination of Governor Ferguson in his impeachment trial was continued this afternoon, during which the counsel for the house and the chief executive had a number of warm word-clashes. Crane asked if the governor did not recall that in 1915 the word "groceries" first was stricken from the mansion appropriation. The governor said he did not.

Mr. Crane asked if it was not a fact that his account and the Bell-Bosque account were greatly overdrawn in 1915 and 1916, the period during which state deposits were put in the Temple State bank.

"Yes," replied the governor.

"Your total indebtedness, including that of the ranch, was about \$155,000."

"Yes."

"You practically guaranteed the Davis, A. F. Ferguson and Bell-Bosque notes which, with your own note, were given in settlement of your affairs?"

"Yes, that is true."

"You knew that you had borrowed all this money and the banking laws prohibited it?"

"Yes," said the governor, "but it was all paid back."

The governor at this point said a Dallas bank in which Mr. Crane is interested had violated the banking laws and had perjured itself in its statements.

"I mean to say the officers of your bank perjured themselves."

"That is denied," replied Mr. Crane vehemently. "You can't get by with this sort of stuff, governor. Just answer my questions."

The governor said if the laws were enforced, every banker in the state would go to the penitentiary.

The governor admitted he had arrangements to prosecute Lee McMassters of Amarillo for the same things he had done in a banking way.

The witness denied he had violated the "spirit of the law."

Getting back to the \$5,600 debit in the governor's official account, Crane asked if it was not a fact that the governor had drawn from his special account practically all of the deposits before the Dayton Lumber case was finally settled.

"Four-fifths of that money was mine," said the governor.

"Haven't you been sued for an accounting by Mr. Mansfield (one of the litigants)?"

"In the last few days there has been an attempt to blackmail me," was the answer.

Crane read from the penal code regarding misapplying of public funds and the penalty of penitentiary imprisonment.

He inquired if the governor was familiar with the law's terms when he permitted \$250,000 to be deposited in the American National Bank of Austin to the credit of the Temple State bank.

"I was," said the governor, "but I didn't violate any law. I didn't steal any of that money; I didn't receive it as a depository. It was not required to be paid into the treasury until a certain later date. The secretary of state didn't violate any law, either."

"How soon was that \$5,600 paid back into the governor's accounts?"

"The records will show."

"Do you think that the law means that an officer of the state can use funds like this?"

"That was an error. The state lost no money."

Crane asked why the governor de-

posited the Canyon City Normal insurance money in the Temple bank.

"I wanted to protect the people from those contractors."

"Couldn't the money be protected if it was in the state treasury? Couldn't you hold the state treasurer responsible?"

"I couldn't hold the state treasurer responsible for anything."

Crane questioned the governor about taking \$60,000 of state funds to the Temple bank in person in February.

"Didn't you try to use that \$60,000 to show the directors you were more valuable to the bank in a money way than anyone else?" he said.

The witness denied this absolutely.

Questioned further about the loans with which he took up his debts last April, the witness said: "General, I want to be frank with you. I got the money when it meant saving me from bankruptcy. I was on the rocks, though solvent, all because of the notoriety coming to me by the legislative investigation. These friends and bankers said they would not be harassed with such notoriety and they would lend me the money if I would keep their names out of it."

"I am going to respect their confidence and keep my promise, even if it costs me the executive office. I worked like a dog for my savings and I am not going to jeopardize it, although I must sacrifice my public office."

"You will not tell us who advanced you that money?"

"No, sir; not for the reasons stated."

"Well, we will pass that for the present. Wasn't the money paid to you in Austin in currency?"

"Yes, sir, for the most part."

"About \$65,000 in cash and the remainder transmitted to the Temple State bank?"

"Yes, sir."

"Did more than one person pay you this money—a little over \$150,000?"

"I will not answer that."

"Did you give security?"

"Yes, sir, all I possess."

"Was it in the form of a mortgage?"

"I will not say. There must be an end some time to inquiring into the private affairs of men, and I must call a halt now. There have been whispers about payment received for locating a school, and I take this occasion to say none of this money was of that kind."

SPENCE ACTIVE IN TWO COUNTIES SAID WITNESS

McAlester, Ok., Aug. 20.—That H. C. Spence, alleged organizer of the Working Class Union, was the principal instigator of the anti-draft organization in Hughes county as well as in Seminole county was the burden of the testimony offered today in the government's hearing in cases against the Oklahoma farmers charged with conspiracy to obstruct the selective draft law. Spence advised the local bodies, one witness said, to "prepare and use tactics." Thirty-two men were bound over under \$5,000 bonds today by United States Commissioner R. N. McMillen.

AMERICA READY TO JOIN WITH ALLIES IN REPLY TO POPE

London, Aug. 20.—Lord Robert Cecil, Minister of Blockade, announced today in the House of Commons that the allied governments would hold a conference before replying to the Pope's peace proposal.

Washington, Aug. 20.—Lord Robert Cecil's statement in Parliament today, that the Entente governments would hold a conference before replying to Pope Benedict's peace proposal, is understood by the State department as meaning that the governments will exchange views and not that there is to be a gathering of premiers or foreign ministers for a formal conference. The American government could not participate in such a meeting, lack of time, if no other reason, preventing. So far there has been no occasion for the State department to join in any of the several Entente conferences that have been held during the war, though American army and navy officials have taken part in some purely technical deliberations.

This attitude on the part of United States government is understood to be due to no lack of sympathy or determination to co-operate fully but to the fact that so far the conferences have had to do with strictly European affairs.

No such limitation applies to the Pope's proposal. It is believed that the necessary co-operation between the nations at war with Germany can be secured by cable exchanges and conferences between diplomatic representatives and foreign secretaries at the different capitals. It was said today that the exchanges would begin soon.

BIG STRIKE FAILED TO MATERIALIZE IN WESTERN STATES

San Francisco, Aug. 20.—Peace and quiet prevail throughout the northwestern states of Washington, Oregon, Idaho and Montana, where strikes of thousands of Industrial Workers of the World in construction, harvesting and fruit industries were scheduled for today. A survey of the situation tonight showed every line of industry to be affected by the proposed strike operating in a normal way and so far as ascertained no attempt was made by any I. W. W. leader to put into effect the strike ordered recently by James Rowan, district secretary, with headquarters at Spokane.

The swift and unexpected action last night of the military authorities at Spokane in arresting 27 alleged I. W. W. leaders is believed to have exerted a powerful influence in deterring radical members of the organization from causing strikes which it is believed would have had serious and far-reaching results.

Washington, Aug. 20.—Department of Justice officials declined tonight to comment on the labor situation in the northwest where a general strike of the I. W. W. had been set for today.

Irresistible Force Is Crowding Germans Back To Frontier

ANTI-DRAFT LAW PLOTTERS GIVEN PRISON TERMS

New York, Aug. 20.—Pleading guilty to charges of conspiracy to violate the draft law, Dr. Samuel J. Bernfeld and Louis I. Cherey, ousted members of Exemption Board 99, were sentenced to two years in the Atlanta prison and fined \$10,000 each.

Both fines later were remitted, at the request of Assistant United States Attorney Knox, who said the United States government "did not care to accept tainted money."

Federal Judge Manton characterized the offense "a most heinous one." The plea of guilty was unexpected. Bernfeld and Cherey declared they were making restitution to the drafted men from whom they accepted money for exemptions.

Kalman I. Gruher, indicted with Bernfeld and Cherey, has yet to plead. It is believed he will fight the case. The sentences and fines were the maximum.

SENATE GOES SLOW WHILE FAVORING MORE WAR TAX

Washington, Aug. 20.—There is wide-spread sentiment in the Senate in favor of adding to the total of the War Tax bill by imposing higher rates on war profits and income surtaxes. It was given new impetus today at the opening of the third week of debate on the measure. There was no action by the Senate during the day and little progress was made on the bill.

GERMAN SUBJECT WINS WIFE IN FRANCE

Bordeaux, Aug. 20.—For the first time during the war a purely Franco-German marriage has taken place here.

Local papers carried the message without comment. The contracting parties were Ernest-Carl Braunschweig, "German subject," and Miss Marie-Jeanne Hurl. Braunschweig is an employee of a commercial house at Libourne, near here.

INTRODUCES BILL TO GIVE RELIEF TO TEXAS FARMERS

Austin, Tex., Aug. 20.—Carrying out the recommendation of the governor, Representative Bell of Ford county today introduced a bill in the house appropriating \$50,000 for the relief of the drouth-stricken farmers in Central-West Texas. The bill provided for extending state aid to the farmers upon making application to the commissioner of agriculture, the money to be used in purchasing seed and also feed for stock for 1918. The bill also has a provision authorizing the counties affected to issue bonds for the purchase of seed and feed, by submitting the question to a vote of the people.

Lose Strong Points And Make No Sort Of Advance

TWO FLYERS KILLED WHEN PLANE BURNED

Buffalo, N. Y., Aug. 20.—Charles A. Wall, Jr., and Richard H. Mead were burned to death late today in an airplane while experimenting with smoke bombs. The machine caught fire and both men were dead when the destroyed plane fell to the ground. Both were in training for army aviation service.

SUGAR MARKET CONTROL WILL BE NEXT HOOVER JOB

Washington, Aug. 20.—Measures to stabilize sugar prices were discussed today by Herbert C. Hoover, the food administrator, with a committee from the New York Coffee and Sugar Exchange, which stopped sugar futures trading last week at Mr. Hoover's request. Prices have advanced sharply within the last few months.

The food administration plans to take control of sugar dealings as soon as it has completed a campaign for supervising wheat trading and flour and bread manufacture.

Members of the committee named by the exchange to see Mr. Hoover are Henry Schaefer, William Bayne, Jr., L. S. Bache, E. L. Leuder and Manuel E. Rionda.

SUFF PICKETS IN JAIL, SCRUB, SEW AND HOE GARDEN

Occoquan, Va., Aug. 20.—Six Woman's Party pickets, doing their bit—thirty days in the workhouse here—went on a severely strict program today. They are among those who attempted to parade banners at the White House.

The latitude previously allowed their sisters has vanished. In its place is a set of grim rules. The six are almost incommunicado. Only relatives or their attorneys can visit them and then only twice a month. They are allowed to eat the usual prison fare and must do their share of scrubbing, sewing or gardening, just like the other prisoners.

The women are finding it hard to eat the prison meals, but they haven't gone on a hunger strike yet.

Representative Baer of North Dakota, who has introduced a resolution asking for an investigation into picketing and means taken to prevent it, is expected here today to make a personal inquiry.

Natalie Gray of Colorado Springs today received a round robin telegram from suffragettes in Colorado, declaring they are bombarding the capitol and White House with demands for an investigation of her "unjust imprisonment" and that they are holding indignation meetings.

With the British troops busily engaged in successfully parrying the counter thrusts of the Germans against the newly won ground in Flanders the French and Italians started monster offensives, the French against the Germans near Verdun and the Italians against the Austrians from the region of Plava to the headwaters of the Adriatic Sea.

Costly Failure

Decisive blows gained for the French positions held by the Germans on a front of eleven miles extending from the Avocourt wood eastward across the River Meuse, while the Italians, after a bombing of an intensity never before experienced in that theater, leveled the Austrian defenses, crossed their ruins and also the Isonzo river and are now at deadly grips along a front of 37 miles. Nearly 12,000 prisoners are already counted by the French and Italians and doubtless this number will be materially increased when the full details of the fighting are at hand. The Germans and Austrians lost heavily in men killed and wounded and in guns and machine guns taken. The new territory taken by the French embraced positions that have literally weltered in French and German blood in the battles waged since the crown prince of the Germans started his costly enterprise, the capture of Verdun, which resulted in complete failure, costing millions of money and the lives of tens of thousands of soldiers. They not only captured the position of Avocourt wood but took two summits of LeMort Homme and the Corbeaux wood, all of which they held notwithstanding counter attacks by the Germans which were broken up by the French fire with heavy casualties.

Airmen Kill Many

French airmen materially aided the infantry in the action, sweeping low over the enemy forces and emptying machine guns into their massed ranks. Eleven German planes were sent hurtling to the ground. Likewise the Italian flyers gave the infantry valuable support, 200 being engaged in dropping bombs and operating machine guns against the troops from behind the lines.

Canadians Biting

The situation in Flanders and northern France is virtually calm compared with last week, but both the French and British are making sallies at various points and strengthening the positions recently captured. The Canadians around Lens are biting into the German lines and now have the coal center virtually surrounded except on the east. Even on this sector the Canadian guns have the range and are making almost impossible movements from or into the town by the Germans. The Entente airmen are continuing their raids over German positions in Belgium and tons of bombs are being dropped.

DRUNK CHOCTAW CLAIMED TO BE IDABEL LAWYER

Sheriff Clarkson and Deputy Sheriff John Brown arrested an Indian on the charge of being drunk at 6 o'clock yesterday evening while he was going along West Houston street back of a wagonyard on Bonham street. He was so much under the influence of whisky that he fell flat on the ground once or twice. He was accompanied by a negro who was carrying a brand new suitcase for him. On being searched the suitcase was found to contain four quart bottles of whisky and one quart of beer. The Indian and the negro had turned into Houston street from Twentieth and were going west.

The sheriff and deputy tried to get the Indian to tell them where he got the whisky, but he flatly refused, declaring that they could take a gun and shoot him between the eyes if they wanted to, but that they couldn't make him tell. The negro claimed that he didn't know where the Indian got it; that he just met up with him and the Indian had hired him to help get him to the depot with it.

When arrested the Choctaw asked the officers what he had been arrested for, and they told him they would let him know when they got him to the courthouse. He warned them to go slow telling them that he was an Idabel lawyer. His home is said to be at Hugo.

CONSUMPTIVE PRISONER RELEASED FROM JAIL

Tom Washington, a negro prisoner, who has been confined in the county jail for some time on the charge of burglary, was brought before Judge A. P. Dohoney yesterday morning on an application for a writ of habeas corpus. He has consumption and the county physician was of the opinion that if he remained in jail he would die. Upon hearing the facts Judge Dohoney placed his bond at \$500 and allowed him to be released on his own recognizance without surety. The defendant is charged with burglarizing a dwelling near Brookston several months ago. His father lives near Honey Grove and he came to Paris to take him home with him.

ONE CASE COMPROMISED; ANOTHER CONTINUED

The district court was in session only part of the time yesterday on account of one of the cases on the day's assignment having been compromised and another continued. The case of Edgar Maynard by his father as next friend against the Cummer Manufacturing company for damages for personal injuries was called up, and after starting into the trial it was agreed that the plaintiff should recover judgment for \$400 and pay the costs of the suit. The injury for which suit was brought consisted of getting a hand mashed while the plaintiff was working at the crate factory.

The suit of J. T. Hannah et al vs. Lone Star Insurance Union was continued for service. A large number of plaintiffs from several different counties are involved in the proceedings.

PARIS IS VISITED BY A TREMENDOUS RAIN

One of the heaviest rains which has occurred in Paris and vicinity in many months fell yesterday morning, beginning at about 2:30 o'clock and lasting until daylight. R. N. Miller, the local weather observer for the government, stated that the rainfall measured 3.62 inches. The rain was accompanied by a very vivid display of lightning and crashing peals of thunder, and there was some damage reported both in town and in the country from the lightning.

On Lamar avenue in the low place, near the Christian church tabernacle, the rain was so heavy that the flood washed sand across the sidewalks and street from one side to the other a width of a hundred feet east and west, and street paving was covered by sand as much as six inches deep in places. There was some damage from bridges and culverts being washed in town, but not as much as was to have been expected.

SUICIDED WITH ROPE AT ENLOE SATURDAY

J. A. Johnson, who was living at Enloe, was found dead out at the lot where he was stying last Saturday morning under circumstances which left no doubt that his death was self-inflicted. He was about forty-five years old, did not have any family of his own and was making his home with his brother-in-law, W. A. Madkin. He arose early in the morning, went out to the lot and secured a piece of rope about four feet long, one end of which he tied to the gate post and the other around his neck. He then sank down to his knees and choked to death. No other cause was assigned for his taking his life than that he had been in bad health for some time. He leaves a brother and a sister in Oklahoma.

ALBERT SIDNEY JOHNSTON CAMP ELECTS OFFICERS

On account of the absence of the commander and of Mrs. O. L. Means, who has direction of the entertainments given by the ladies, only a business meeting was held Sunday afternoon by Albert Sidney Johnston Camp. The annual election of officers took place and resulted in all of the present officers being re-elected as follows: T. J. Vansant, commander; Geo. P. Henley, first lieutenant; J. R. Justiss, second lieutenant; Mrs. T. D. Wells, adjutant; J. W. Hardison, quartermaster; Dr. W. W. Stell, surgeon; Rev. J. H. Collins, chaplain; S. R. Anderson, standard bearer. A committee was appointed to prepare resolutions on the death of Comrade E. Abshire.

DEATH OF JAKE JONES AT MINERAL WELLS

J. L. (Jake) Jones, a former well known resident of Lamar county, who was living at Medicine Mound, Harde-man county, died at 1 o'clock Sunday afternoon at Mineral Wells, where he had gone for his health a week ago yesterday. He kept growing worse, however, from the time that he left home and his condition became too critical and weak for him to get back home. All of the members of the family were summoned to his bedside at Mineral Wells and were present when he died. Death was due to bright's disease.

Deceased was born and reared in Lamar county in the Jennings community and was the son of a pioneer resident. Most of the years of his life were spent here and when he moved to Western Texas about twelve years ago he left behind a great many warm, personal friends. He is survived by a wife and three daughters and five sons. One of the sons, J. T. Jones, who is bookkeeper in the First National bank, was county tax collector four years. A daughter, Mrs. J. W. Peace, lives south of town near Jennings, and all of the other children live in Western Texas.

Besides his own family he is survived by a sister, Mrs. Bullington of Paris, and a brother, Bob Jones of Jennings.

The remains were brought to Paris yesterday evening on the Texas & Pacific train and the funeral service will be held at 1:30 o'clock this afternoon at 119 South Twenty-Sixth street, conducted by Rev. W. B. Kendall. The burial will be at Evergreen cemetery.

AN OLD SETTLER OF GARRETT'S BLUFF

Stephen Dancer, a former resident of Lamar county, died last Friday evening at his home at Boswell, Ok. The cause of his death was not learned, but it is understood that it was rather sudden, as one of his sons from Lamar county left for Boswell to visit him on the same day that he died, not knowing that he was sick. The remains were brought to Garretts Bluff for burial Saturday evening. He was one of the old settlers on the river at Garretts Bluff and moved from there to Boswell about five years ago. He is survived by a wife and five sons, W. H., S. M. and Harmon Dancer of Boswell, J. A. Dancer of Belk and Arthur Dancer, living near Garretts Bluff.

SECURED QUARTERS IN NEW COURTHOUSE

Notice was received yesterday from the federal government of its acceptance of a proposition from the county commissioners' court to rent it temporary quarters in the new courthouse until the federal building is erected for officers of the Paris division of the court to occupy and for holding court. The quarters to be occupied by the federal officers are three rooms in the northwest corner on the second floor, with the privilege of using the courtrooms. When the district and federal court are in session at the same time the federal court will be held in the county courtroom. The rent to be paid Lamar county is \$60 per month.

DEATH AT DEPORT DUE TO INJURY TO HIP IN FALL

Mrs. John Dickson, who was about seventy years old, died a few days ago at the home of one of her children at Deport, where she and her husband were making their home. Her death was said to have been due to a fall which she received about a month ago from a gallery, which resulted in her hip being injured. Although not broken, it was badly bruised. The deceased and her husband were old settlers of the Sylvan community. They moved about a year ago to Deport to live with their children. She is survived by her husband and two daughters and four sons. The remains were taken to Sylvan for burial.

TAX RATE FIXED BY CITY COUNCIL

Ordinances were adopted yesterday afternoon by the city council, fixing the tax rate for this year and appropriating the income under the budget. The rate will be \$1.45, divided into .355 for schools, .615 for interest and sinking funds on bonds and .48 for current expenses. The amount levied for schools is the limit but the current and bond funds each are somewhat under their maximum. Of the amount realized, in round figures, \$42,600 will go to the support of schools, in addition to the amount received from taxes in the independent school district and from the state.

For the payment of interest and creating the bond sinking funds, \$75,300 will be set aside.

For current expenses, \$57,600, in addition to the revenues derived from the water works, abattoir, police court, licenses, etc., will be used to cover these items:

Salaries	\$12,712
Executive Dept.	1,500
Street lights	11,000
Health Dept.	6,000
Street Dept.	12,000
Police Dept.	13,900
Fire Dept.	10,000
Water Dept.	27,000
Sanitary Dept.	10,000
Abattoir	6,500
Charter reserve	3,226
General auxiliary	14,000

Out of the proceeds of bond sales and other resources for public improvements the following appropriations are made:

Streets and sidewalks.....	\$75,000
Charter reserve	14,000
School Houses	161,000

The outstanding bonds of the city for all purposes total \$1,074,000. Several thousand dollars of this will be retired during the coming year.

The usual poll tax of \$1.00 was levied.

HELP RED CROSS

The Red Cross is willing to send materials and call for the finished garments when necessary, but it earnestly requests those who can possibly do so to send to the headquarters, or call in person, for materials which they are willing to make up and then send the garments back. This will save the ladies much time, which they can use for other work. If, however, this is too inconvenient, telephone the headquarters and service will be given.

WATER NOTICE

I am requested by the city council to announce that the water in the city lake is getting low; and also that it is highly probable that in a comparatively near future our deep wells will constitute our sole source of supply. This announcement will be received with genuine regret by many who do not like the well water. Just how soon the change must be made will depend somewhat upon the degree of prudence our people manifest in the use of water.

All are respectfully urged to refrain waste and even the unnecessary use of water. By practicing a rigid system of economy it may be possible to go through the entire dry season without resorting to the use of the well water.

Respectfully,
Ed H. McCulstion, Mayor.

Red Cross Notice

There has been a misunderstanding about giving out sewing at the Red Cross headquarters. More sewers suggested that there might be some suggested that there might be some women in Paris who could not do the work themselves but who would hire some done either at their homes or at the headquarters. The Red Cross has no money to hire women to do the work for them and any individual who would contribute in this way would have to employ their particular sewing women and thus relieve the Red Cross from choosing one among the many needy women they know.

DRAFT LAW VALID, U. S. COURT SAYS

Washington, Aug. 20.—The army draft law was held to be constitutional by Federal Judge Emory Speer, in the Southern District Court of Georgia, today, according to official word from Macon, received here.

The decision was handed down in the case of several men who appealed from their arrests for failing to register on the ground that the law was unconstitutional.

MARYLAND LABOR DRAFT LAW IS NOW IN EFFECT

Baltimore, Md., Aug. 20.—Maryland's registration for the labor draft law became effective today. Twenty-six men in Baltimore had registered as unemployed up to noon.

The law will make work mandatory on every man between 18 and 50 throughout the state. Men who refuse to work will be forcibly drafted into a labor army and those who can not find work will be assisted in obtaining employment.

The statute hits the idle rich no less than penniless hoboes. Failure to register is punishable by heavy fine.

Plenty of rich youths who lead an effortless existence were busy today seeking sinecure jobs to satisfy the law.

MEXICO MAY GET LOAN IN U. S. GOVERNMENT SAYS

Washington, Aug. 20.—After two years of pleading for financial assistance the Mexican government has been assured that American money can be secured. It was learned today that the American government has finally conveyed information to American bankers of its faith in the Carranza government to the extent that it will be justified in extending moral endorsement to the loans. Officials of the Mexican government denied any direct effort to obtain a loan in United States but American bankers approached are reported as saying that they could not finance the new government and the matter was declared off and taken to London. The London bankers refused to have anything to do with the proposition.

American bankers were never averse to placing money in Mexico if it was made secure by action of the State Department. The exact character of the assurance now given has not been revealed but it is understood that if the Mexican loan is made President Carranza agrees to receive advice as to how it is expended and to a degree of supervision. The Mexican government it is understood is trying to borrow not less than \$250,000,000.

TEXAS CATTLE TO BE TAKEN EAST

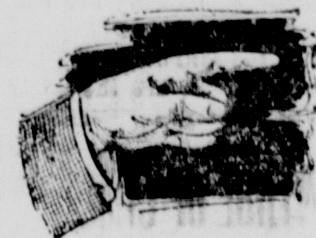

Washington, Aug. 20.—Transfer of thousands of head of cattle from the dry section of Texas and other southwestern states to grazing lands in southern states east of the Mississippi is one of the first tasks to be undertaken by a joint committee to be appointed by the Department of Agriculture and the Food Administration.

Children's Muslin Drawers

Children's Muslin Drawers, every child needs such a lot of them in warm weather, and we are selling them for so little that to make them seems a waste of time and money. Plenty of them at Plain Tucked, sizes 2 to 12, at 10c
Tucked and Hemstitched, sizes 2 to 14, at 15c

Dollar Skirts and Waists

To spend a Dollar here for a white skirt or a waist is true economy for the values are so great that the price is no index. Wonderfully satisfying varieties of both these garments are offered at this small and popular price—only one dollar.

The Skirts are of good quality Pique, amply cut and well made, not the narrow, skimpy skirts that some stores call a dollar bargain, and all this season's styles.

The Waists are mostly the Wirthmore Waists, the greatest \$1 waist value the world ever saw, and the styles are renewed every week by fresh shipments of new patterns.

Pumps and Slippers Special

RED CROSS WORK IS WELL DONE

Miss Frances Hancock, secretary of the Lamar County Red Cross society, has received from the director of the supply service at St. Louis a letter of thanks for the box of supplies already shipped, and he adds, "We wish to compliment you very highly on the excellent grade of work."

The Chapter is in need of more wrappings for packages and bandages, and asks that anyone who has cloths suitable for this purpose will contribute them. Only old sheets or table cloths are fit for this purpose, as the material must be close woven and without holes. Thin muslins, such as undergarments are made of, can not be used.

If anyone having old clean sheets or table cloths which they are willing to give for this purpose will notify the headquarters they will be sent for.

Despondent Women

Constantly recurring suffering gives women "the blues." Comparatively few women realize that despondency, together with backache, headache and that "dragging down" feeling indicate some derangement of the feminine organs, for which Lydia E. Pinkham's Vegetable Compound is a remedy.

It is said that this famous, old root and herb remedy has been the means of restoring more women to health and consequent happiness than any other remedy in the world.

Don't wait until your life is wrecked by neglect and suffering. Give the Compound a trial.

KAISER PROUD OF HIS NAVY BUT HE DOESN'T SAY WHY

Amsterdam, Aug. 20.—At the conclusion of his visit to the German high sea fleet at Wilhelmshaven, Emperor William issued the following to the fleet:

"After having recently received an announcement that a renewed heavy attack of the enemy in an attempt to break up our sea front in Flanders had been successfully repelled, I have today by a visit to my fleet and the island fortress of Helgoland been enabled to convince myself of the strength and security of this front too. I express my warm appreciation to all the high sea forces on the water, under water and in the air, and to the fortress of Helgoland, for their untiring, self-sacrificing and successful labor, by means of which they have kept firmly in view and attained this aim. May the fleet remain conscious that the confidence of myself and the fatherland reposes firmly on it."

The emperor distributed a number of iron crosses. His visit is reported to have been caused by the threat of strikers at the Wilhelmshaven arsenal.

CHECK FOR TWO HUNDRED MILLION WAS FOUND GOOD

Washington, Aug. 20.—The largest check ever issued in the world has been returned to the United States Treasury, paid and canceled. The check for \$200,000,000 was signed by Secretary of the Treasury William G. McAdoo and represented the first payment on the loan of the United States to Great Britain.

Other large checks which have been signed by Secretary McAdoo within the last six months are one for \$100,000,000 to France and one of \$100,000,000 to Italy. Numerous other smaller checks ranging from \$1,000,000 to \$75,000,000 have been signed as loans to allies.

Previous to January, 1917, the largest check that had ever been signed by a Secretary of the Treasury of the United States was one for \$40,000,000 in payment for the rights of the French Panama Canal Company for the privilege of constructing the Panama Canal. The next largest check was for \$25,000,000 in payment for the Danish West Indies.

When the treaty ceding the islands to the United States was signed it contained a clause calling for payment of the entire amount in gold. When it came time for the Danish Minister to collect for the islands, the Treasury was ready to make the payment in gold, but the perplexed Minister found that there were hardly enough wagons in Washington to haul \$25,000,000 in gold, and finally, after much cabling between officials, he consented to take a draft for the amount, to be placed at the credit of his government.

URGES LARGER TAX ON PROFITS FROM THE WAR

Washington, Aug. 20.—Demanding a higher war profits tax in the revenue bill, Senator Johnson this afternoon told the Senate "those who coin the blood of the war are best able to pay the debt of war."

The Californian predicted that if priating money at the present rate, priating money at the present rate, the war debt would exceed, by the end of next year, that contracted by any other nation.

The committee's argument that war profits ought not to be taxed so heavily as to drain them at one effort, Johnson replied:

"Is it wise statesmanship to look to the time when there will be no war profits and expect then to tax them? We have got to do as Great Britain is doing by taking the larger part of these profits instead of a mere trifle."

Johnson warned the Senate to show the same enthusiasm in drafting wealth as when the youth of the nation was drafted.

Senator LaFollette, who was to have begun today his fight on the war profits and income tax provisions of the bill, announced he would not be ready until tomorrow.

Senator Jones of New Mexico, in a three-hour speech, asserted these sections did not make an equitable distribution of the tax burden.

DISCIPLES OF NEW DANCES TO TRY AND CONVERT OLD FRIENDS

New York, Aug. 20.—Efforts to compose differences between the Inner Circle, the so-called "Advocates of Up-to-the-Minute-Dancing," and the American National Association of Masters of Dancing, will be made when the association opens its annual convention in this city Wednesday, according to G. Hepburn Wilson, head of the Inner Circle, which opened its convention here today.

Mr. Wilson says his organization regards the fox trot and the one-step as dances of a by-gone age, and will endeavor to impress the association with the interpretative value of the rambles, the Jazz dance and the toddle, which, he says, are the latest creations in the terpsichorean art.

CONTROL OF COAL IN NEAR FUTURE

Washington, Aug. 20.—Government control of the coal industry took a step nearer today when President Wilson formally notified Robert S. Lovett of the War Industries board and director of price of transportation, and approved an order by Judge Lovett directing that railway and steamship lines and terminals show preference in shipments to the northwest over all others.

The next step will be the designation of a coal administrator with authority over production and distribution and price fixing powers.

TWO GERMAN SUBS FAILED TO SCORE

An Atlantic Port, Aug. 20.—A hit of a German submarine on the outward voyage and successful thwarting of an attack by another German submarine on the trip back was reported tonight. One submarine was sighted about 300 miles from the coast of France. Naval gunners on the merchantman opened fire and the third shot pierced the periscope and the undersea craft disappeared.

On the way back the ship encountered the second sub. The gunners again opened fire before the sub could get action with her guns but do not believe that they scored a hit as the sub went under too quick.

FILM COMPANIES MAKE LAUGHS NOW

Chicago, Aug. 20.—The war has caused an increase in the output of motion picture comedies, according to Adolph Zuker, president of a large film producing company.

"We are making mostly comedies now," he asserted today. "People want fun and laughter in the films. They take their tragedies from the newspapers."

MILADY'S SKIRT TO BE SHORTER AND SCANTIER

New York, Aug. 20.—Milady's skirts are going to be even shorter and scantier, according to reports from Paris and New York fashion headquarters.

As a war conservation measure the dressmakers have decided to use only four and a half yards of material per skirt. Just how this four and a half yards is to be distributed as to longitude and latitude will depend on each woman's individual taste.

SHIPPING BOARD WANTS MORE MONEY

Washington, Aug. 20.—A billion dollars will probably be asked of Congress by the Shipping Board for the completion of its 18-months building program. Contracts to be placed for the great fleet of fabricated steel ships, ordinary contracts to be let and the cost of commandeering ships will send the total far above the \$500,000,000 additional estimate by the board.

EACH SOLDIER HAS \$156.30 SPENT FOR HIS EQUIPMENT

Washington, Aug. 20.—It costs the United States just \$156.30 to equip an infantryman for service in France. Figures made public show that of this total clothing represents \$101.21, fighting equipment \$47.36, and eating utensils \$7.73.

The soldier's gas mask costs \$12; his steel helmet \$3 and his rifle \$19.50. The first 600,000 to 800,000 of America's fighting men will be equipped with the present Springfield army rifle, those to follow will carry the Enfield used by English troops.

ESTIMATE TEXAS COTTON CROP AT THREE MILLION BALES

San Antonio, Texas, Aug. 20.—Nearly one hundred cottonseed crushers met at the Gunter Hotel this morning and agreed in estimating the Texas cotton crop at not exceeding 3,000,000 bales. West, Central and South Texas, it was agreed, will not have over one-fifth of the normal yield, while the crop in Central and Central West Texas is almost a complete failure, the children picking the staple in tin buckets. Many gins and several oil mills in those sections of the state will not operate.

The rest of the state, it was declared, has a good crop prospect.

CONFIRM MURDOCK FED. TRADE COM.

Washington, Aug. 20.—Without opposition today the Senate confirmed the nomination of former Representative Victor Murdock of Kansas to be a member of the Federal Trade Commission and all except two of the nearly 200 major generals recently nominated by President Wilson.

BILL MAY STOP LABOR EXODUS FROM TEXAS

Austin, Tex., Aug. 20.—Senator Hall today introduced in the senate a bill regulating the business of immigration bureaus in Texas. The bill provides for licensing such bureaus and places other restrictions on their operations. The bill is designed to check the exportation of Texas laborers to Northern and Eastern points. A similar bill was introduced today in the house of Representative Beason.

FURTHER DELAY IN DRAFT MOBILIZATION

Washington, Aug. 20.—Mobilization of the second increment of the first drafted troops was changed today from Sept. 15th to Sept. 19th and of the third increment from Sept. 30th to Oct. 3d. Mobilization of the first one-third will begin Sept. 5th as previously announced.

GERMANS LIKE G. O. P. CLAIM EVERYTHING

Berlin, Aug. 20.—The German official communication this evening says the French attack in the Verdun region was everywhere repulsed except in the Avocourt wood and at LeMort Homme and that the battle is now going in favor of the Germans.

"Those Lawless Mountaineers"

Christian Science Monitor:

So prompt and general and complete was the response of their fighting men to the country's call for volunteers, that there was no draft in Breathitt or Lee counties, Kentucky. Nor is there likely to be any at any stage of the war, for it is going to be an easy matter, hereafter, to keep their quotas full, providing the eligible men of the two counties do not exhaust the surplus by helping to fill quotas elsewhere. This news will be no surprise to those who have gone below the surface in recent years in an honest effort to judge the "lawless mountaineers" of Kentucky with righteous judgment. "Bloody" was a title long since earned by one of these counties; its sister was for years only a degree less deserving of similar distinction. "Bloody" Breathitt was a name that stuck, and so closely was Lee associated with it that the latter really did not need a separate nickname. Most people were content to couple the two in thought and conversation. When "Breathitt and Lee" were mentioned, they knew instinctively in what connection. Another act of lawlessness had in all probability been committed! One of the old feuds had broken forth afresh! The factions were hard at it once more! Something was doing among the Hargis, Cockrill, or Curry families!

Yet, in a strict sense, lawlessness has never prevailed among the people of Breathitt and Lee. For the most part, they have been and they are peaceable and peace-loving. Between certain of them, however, feuds long existed, and these led to acts which brought upon the entire communities a bad reputation. The mountaineers of Kentucky, the Virginias, the Carolinas, Tennessee and Georgia are strictly honest and truthful, honorable in the highest degree, but some of them are abnormally sensitive upon certain points and altogether too handy at times with firearms. It is true that "moonshining" was long an almost universal practice among the mountain people of the South, but, on the other hand, they were bred to regard the internal revenue system as an invasion of their rights as freemen, a social intrusion and a crime. They ignored rather than violated the revenue laws. It has not always been equitable, even if possible, to measure their morality by lowland standards.

But there never has been any lapse in their patriotism. They were among the most daring of pioneers. They took an active part in the French and Indian War. The sharp reports of their muskets in the Revolutionary period won for them the name of "crackers," a term still used but generally misapplied south of Mason and Dixon's line. There were no better or braver fighters in the War of 1812, the Mexican War, or the Civil War. The mountaineers of Kentucky were among the very first to volunteer for service in Cuba. The charge of ignorance to which they have been subjected for years is proved libelous by their knowledge of the European situation and consequent remarkable response to President Wilson's call for volunteers.

A library of books might be filled with matter written about these mountain people. Much that has been written about them is fanciful, much has been misrepresentation, much has been slanderous. The motion picture has too often stamped them as a race with criminal instincts, whereas, they probably are as free from immoral tendencies as any other large and isolated body of human beings. They are churchgoers, they are narrow in their outlook, they are reticent, they do not invite intercourse with the outer world, but they are courteous and hospitable to strangers. As remarked already, they are sensitive; let it be admitted that they are sometimes revengeful; but, taken as a whole, they display far more of virtue than of vice, and they are unquestionably brave and loyal to their country's flag.

Racially, they are almost an equal mixture of the Anglo-Saxon and the Celtic. English, Scotch and Irish names and characteristics are to be found plentifully among them. Some of them speak the English of the Elizabethan period. The traditions of the Commonwealth are preserved in their families and their communities. They never tolerated slavery, and they abominated it as an institution. They are natural democrats. They are natural foes of aristocracy and autocracy. What they might have become had they not been caught in the pockets of the Cumberland and Blue Ridge, and arrested in their progress and development, nobody can say, because nobody knows; but that they are a people capable of rising to higher opportunities than their mountain life affords, is a fact written indelibly into the history of the nation. For was not Lincoln one of them?

NOTICE

All persons who drive automobiles are hereby advised that since the receipt of advice from the Attorney General's office, I have determined to stop some of the reckless driving which has been so prevalent over the city since the Highway law went into effect. I prefer not to make any arrests by the first day of August by which time I will have a copy of the law which enables us to enforce the provision of this law but if there are flagrant violations I will make arrests even before that time. This notice is given with the hope that those who have not equipped their cars as the state law provides will go so without further delay. The law will hereafter be strictly enforced.

GOHAM FANS SEE FIRST SUNDAY BASEBALL GAME

New York, Aug. 20.—The first National league ball game ever played in Manhattan borough on Sunday was a 5 to 0 victory for Cincinnati over New York yesterday. The game was preceded by a patriotic band concert, the receipts going to a fund for dependents of the Sixty-ninth New York regiment. The regiment, in a body, marched across the field before the game. A ball autographed by President Wilson was auctioned off to James Butler for \$500.

Toney's great pitching stopped the Giants, as he allowed only five hits. It was only the fourth shutout suffered by New York this season.

Demaree gave Toney a tussle for four innings but weakened in the fifth, when Cincinnati scored two runs on Neale's single, Toney's base on balls, Groh's double.

Anderson, who succeeded Demaree, was ineffective, letting in one run in the eighth with a wild pitch and another with a wild throw to the plate.

GREAT FIRE AT SALONIKI IS NOW UNDER CONTROL

London, Aug. 20.—More than half of the walled city of Saloniki, in Greek Macedonia, which is under occupation by the entente allied troops was destroyed by fire on Saturday. Eighty thousand people who were rendered homeless were being removed to neighboring villages last evening, according to a dispatch received in London. The fire is now under control.

ASKS 6 MONTHS' NOTICE BEFORE ALLOWED TO WED

Dallas, Aug. 20.—Scoring the "double standard of morals" as false, Dr. Charles L. Gregory, former superintendent of the State Insane Asylum for the Insane at Terrell, in a sermon at the City Temple last night, urged that women require the same standard of living from men as is exacted of women. He also urged the adoption of laws intended to prevent the spread of disease due to social vice, and to throw safeguards around marriage.

The speaker also recommended the passage of laws requiring that banns be published beforeman and woman are permitted to marry. These notices, he said, should be published from three to six months prior to the marriage.

RUSSIA TO SUPPRESS INSULTING PAPERS

Petrograd, Aug. 20.—In consequence of the article in Friday's issue of Maxim Gorky's newspaper, Novaya Zsian, in which the Russian author is alleged to have continued his insulting expressions regarding the entente allied powers and their representatives, the Russian provisional government has promulgated a law sentencing to imprisonment in a fortress persons guilty of such action.

MEAT SUPPLY FOR ALLIES IS BIG PROBLEM

Washington, Aug. 20.—The problem of supplying the allies with meat has devolved mainly on the United States and daily the burden is growing more onerous, according to a statement, issued by the food administration today. War time demands have been so great that Europe has been making alarming inroads on its herds with a consequent reduction in its domestic supply.

Since the war started there has been a total decrease of 115,005,000 in the world's supply of meat-producing animals.

During the year ending June 30, 1916, America exported 1,389,193,000 pounds of meat as compared with

NEW ITALIAN ATTACK NO SIGN OF PEACE

Rome, Sunday, Aug. 19.—Commenting on the new Italian advance the press says that it, like the British attack in Flanders, will be of service as it demonstrates how the people and armies of the allied countries feel toward the premature peace proposals of Pope Benedict. It is said Austria apparently realizes the gravity of the situation, as announcement is made that Emperor Charles is soon to visit the Austro-Italian front, presumably to encourage his troops.

The official Austrian statement of yesterday said the Italians had begun an offensive on a 37-mile front, from the region of Tolmino to a point near the Adriatic. The struggle was said to be raging with the greatest bitterness. Yesterday's Italian official statement did not mention the offensive.

BRITISH REPULSE SHARP COUNTER ON WEST FRONT

London, Aug. 20.—A German counter-attack on the positions captured by the British yesterday morning south of the Epsey was completely repulsed after sharp fighting according to an official statement issued yesterday by the war office. A successful raid was carried out last night south of Lens. On the Ypres battle front the British line has been advanced slightly southeast of St. Janshoek.

PEOPLE'S LOAN ASSOCIATION

SANITARY NOTICE

People who have not paid their sanitary bills for the third quarter, beginning in July, had better do so, as arrests are being made as fast as the bills are turned in to us. Thirty were made yesterday and if you would save trouble and costs you had best comply with the law.

All weeds on all premises and in front of premises must be cut at once. This is fair warning.
John Howerton,
City Marshal.

Watch the grocery stores, confectioneries, restaurants, soda fountains and other places where foods are sold, and see if they show the Banner given to all who score 85 per cent or better. Prudence would lead you to buy from the place that has proof of its sanitary arrangements.

The State of Texas. To the Sheriff or any Constable of Lamar county, greeting. You are hereby commanded to summon Jim Manasco by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the 6th Judicial District Court of Lamar county, to be holden at the court house thereof, in Paris, Texas, on the 9th Monday after the 1st Monday in August, A. D. 1917, the same being the 8th day of October, A. D. 1917, then and there to answer a petition filed in said court on the 21st day of July, A. D. 1917, in a suit numbered on the docket of said court No. 784, wherein Myrtle Manasco is plaintiff and Jim Manasco is defendant and said petition alleging, in substance, as follows: That plaintiff is a bona fide resident of Lamar county, Texas, and has resided in said state for 12 months and in said county for 6 months, next preceding the filing of this suit. Also that the residence of the defendant is to the plaintiff unknown; that plaintiff and defendant were legally married on, or about, the 14th day of March, A. D. 1915, and lived together until on, or about, the 15th day of November, 1915, when defendant, without cause on the part of plaintiff, left and abandoned said plaintiff since which time they have not lived together as husband and wife; that during the time plaintiff and defendant lived together, plaintiff was a true and devoted wife to defendant, but said defendant, very early, became cross and cruel to plaintiff and continued so

until the date he left and abandoned her. Plaintiff further alleges that defendant never supported her during the time they were living together, and has not contributed anything to her support since their separation; that defendant was very disrespectful towards plaintiff's family in that he spoke very disparagingly of plaintiff's father, this, much to the humiliation of plaintiff, as said plaintiff is very devoted to her father. Plaintiff alleges, further, that defendant was jealous of her, wholly without cause; that during the time they lived together, defendant constantly nagged at plaintiff and harassed and tormented her in order to induce plaintiff to abandon him; that defendant often threatened to leave and abandon said plaintiff, before he did leave and abandon her on the date heretofore alleged. Plaintiff's petition further alleges that because of such alleged conduct on the part of the defendant toward said plaintiff, that their further living together as husband and wife is insupportable. Wherefore, plaintiff prays that defendant be cited according to law to answer the allegations herein, and that upon final hearing hereof, that she be granted a decree divorcing her from said defendant; that judgment issue, dissolving their said marriage relations, and for other relief, general and special, in law and in equity, that she may be entitled to.

Herein fail not, but have before said court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same. Witness, Walter Dewese, clerk of the district court of Lamar county. Given under my hand and the seal of said court, at

office in Paris, Texas, this the 21st day of July A. D. 1917. Walter Dewese, clerk district court, Lamar county.

SOUND ADVICE

The people of today are inflicting grave injury upon their eyesight because they do not understand it until too late. Neglect is robbing many persons of good vision. Eyesight changes constantly but so slowly that it is not until the harm is done that suspicion is aroused. Only a few minutes' time spent in my office will determine this and if I recommend glasses I will prove to you why they are necessary.

VOTE TO RECLAIM OVERFLOW LANDS

The Constitutional Amendment to be voted on today provides for the reclamation of overflow land, irrigation of arid lands, drainage, etc., amounting to something like thirty-five million acres, all told, in the state of Texas. The average value of such lands is \$5.00 to \$10.00 per acre; the average reclaimed value named by the State Reclamation Department is \$125.00 to \$150.00 per acre—based on actual production of lands that have been reclaimed.

Its passage is of tremendous importance; it will add materially to the development of the community and state by conserving the storm waters which have heretofore gone to waste, by reclaiming some of our very richest lands, which have heretofore been abandoned as practically worthless and providing for the irrigation of millions of acres of our most fertile farm lands; all of which is proposed under this amendment, and that without placing any part of the burden on those who do not derive benefits therefrom. It means the citizen who owns land not subject to overflow or irrigation CAN NOT BE TAXED therefore, but that his tax burden will eventually be DECREASED in proportion to the increased wealth brought about by RECLAMATION AND CONSERVATION.

The passage of this amendment means:

The increased productivity of the state as a whole, about 20 per cent. Increased land values. Improved roads and greater population.

More cotton to gin. More wheat, more oats, more corn, more agricultural products in every line to sell.

More money to bank—more money to loan—more money for Texas.

More merchandise to be sold—dry goods, clothing, hardware, implements, groceries, machinery, etc.

This amendment makes possible the removal of the present restrictions as to reclamation work. It also makes possible the bonding (and therefore the building) of protective levees along full river courses, extensive irrigation ditches, drainage systems, etc., the expense of same to be distributed equally among those who receive the benefit and then only after the measure had received the majority vote of the district proposing such improvements. It is further proposed that such districts shall be laid out by the state, at the coming session of the legislature, the majority vote today being the mandate of the people to the state legislature.

Under the present law (handed down to us in about 1876) the matter of securing bonds for reclamation purposes is very difficult. The Constitution permits only 25 per cent of the assessed value of the land to be issued in bonds—hence, if \$25 per acre is needed the assessed value must be \$100.00 per acre, and state, county, road and other taxes paid on this rendition. Hence you will readily see how the land owner, who undertakes to levee or irrigate his land under the present law is penalized. To say the least of it, it is very discouraging to the average farmer and land owner.
